

The 4MAT® Method

SPECIAL NOTE: The lessons contained in this software were created with the lesson plan development system called 4MAT. 4MAT helps teachers organize instruction in a way that enhances learning for all types of students. For a complete description of the 4MAT lesson planning process, open up and print out the lesson plan entitled "Model Plan."

In addition to lesson plan development software, Excel Inc. offers complete training programs in the 4MAT Method of Learning. If you would like additional information, please contact Excel at the address listed below.

Excel, Incorporated 23385 Old Barrington Rd., Barrington, Illinois 60010 • Phone: (708) 382-7272 • Fax: (708) 382-4510
